PROFESSIONAL SUMMARY

B.E. Computer Science and Engineering student with a strong foundation in Core Java, object-oriented programming, and frontend web development (HTML, CSS, JavaScript). Hands-on project experience building responsive dashboards and interfaces, including a cybersecurity-focused project. Proficient with Git/GitHub for version control. Quick learner, adaptable, and eager to grow full-stack development skills in a professional role.

TECHNICAL SKILLS

Programming Language: Core Java (Object-Oriented Programming concepts)

Web Technologies: HTML5, CSS3, JavaScript (Basics)

Version Control: Git, GitHub

Domains Explored: Cybersecurity Fundamentals, Responsive UI Design, Data Visualization

Core Competencies: Problem Solving, Debugging, Software Development Life Cycle (SDLC) basics

EDUCATION

B.E. Computer Science and Engineering | SKP Engineering College | 2023 – 2027

CGPA: 8.01 / 10

INTERNSHIP EXPERIENCE

Internship — In Progress | *Ongoing*

Currently undergoing an internship (not yet completed); company, role, and technology details to be added upon completion.

PROJECTS

Wolf ScanX | *HTML, CSS, JavaScript, Git*

- **Problem Statement:** Built a cybersecurity-focused application to help visualize and monitor scan/security-related data through a centralized interface.
- **Features:** Responsive dashboard interface with data visualization components for security insights.
- **My Contribution:** Designed and developed the front-end dashboard, implemented responsive layout, and built data visualization elements.
- **Outcome:** Delivered a functional, responsive dashboard prototype demonstrating front-end and cybersecurity-domain application skills.

Home Made Food Delivery App | *HTML, CSS, JavaScript*

- **Problem Statement:** Designed a concept application to connect home cooks with customers seeking home-style food delivery, as a mini/academic project.
- **Features:** User-friendly food ordering interface and menu browsing concept.
- **My Contribution:** Designed the application concept and user interface.
- **Outcome:** Completed as a mini project demonstrating UI/UX design and front-end development fundamentals.

CERTIFICATIONS

- Basics of Python — UniAthena, in partnership with Cambridge International Qualifications, UK
